

Using Artificial Intelligence for Teaching and Learning

How can you use the best tools available to impart knowledge and nurture future generations?

With artificial intelligence (A.I.) in your toolkit, you can engage the latest technology to take your classroom management and teaching strategies to the next level. With A.I., gain unique adaptive assessment capabilities to collect, measure, and respond to student learning data as teaching happens.

25 April 2024

3:30 pm - 5:00 pm
(GMT +8)

Zoom

In this webinar, hear from our speaker, Mark Stanley, CEO Founder of Literatu, about:

The uses of technology in the classroom today

Our A.I. products, Digital English Campus and Scribo

Infusing elements of A.I. into a traditional classroom to better engage students

Let MCE support you in engaging your class in generative A.I. applications.

I want to learn more about MCE's A.I. tools!
